

CHRISTO REY MAN-ON ESPINA

BS Information Technology Student | Aspiring UI/UX & Web/Software Developer

Lapu-Lapu City, Cebu, Philippines | 0966 867 4294 | christoreyespina@gmail.com

LinkedIn: www.linkedin.com/in/christo-rey-espina-936ab52a9 | GitHub: github.com/spinach-clone

OBJECTIVE

Fourth-year BS Information Technology student experienced in designing and building full-stack web and mobile applications, combining front-end development (React, React Native) with UI/UX design (Figma). Seeking a UI/UX, Product Design, or Software/Web Development internship to apply and grow these skills in a real-world team.

EDUCATION

University of Cebu – Lapu-Lapu and Mandaue (UCLM)

Expected Graduation: 2027

Bachelor of Science in Information Technology, major in Applications Development — 4th Year

- Dean's Lister, consistently since 1st year | Academic Scholar
- Relevant Coursework: Web Development, Database Systems, Human-Computer Interaction (HCI) / UI-UX Design, Data Structures & Algorithms, Networking

TECHNICAL SKILLS

Programming Languages: HTML, CSS, Java, JavaScript, PHP, SQL

Frameworks & Libraries: React, React Native, Laravel, Bootstrap, Tailwind CSS, NativeWind CSS

Design Tools: Figma, Canva

Other Tools & Platforms: Git/GitHub, VS Code, Supabase, MS Office, Google Workspace

Spoken Languages: Cebuano (Native), English (Fluent)

PROJECTS

Angay — Barangay Food Donation Mapping Platform

School Project

Developer & UI/UX Designer | React, HTML, Tailwind CSS, Supabase

- Designed and developed a web platform, aligned with UN SDG goals, that uses an interactive map to pin barangays requesting food donations for faster identification by donors and foodbanks.
- Built role-based access for barangay representatives, donors, and foodbanks, and displayed live barangay statistics to help donors prioritize the areas of greatest need.

Fundar — Student Capstone Crowdfunding Platform

School Project

Developer & Designer | React, Tailwind CSS, Supabase

- Designed and built a platform where students post funding requests for capstone/thesis projects, connecting them with potential backers.
- Integrated gamification features, including daily challenges and achievement badges, to increase user engagement and retention.

Pitch It! — AI-Powered Pitch & Interview Practice Platform

Personal Project

Developer & Designer | React, Tailwind CSS, Web Speech API, OpenRouter API, Supabase

- Designed and developed a web-based, mobile-responsive platform where users practice pitching and answering questions using structured speaking frameworks (STAR, PREP, OREO, AREM).
- Implemented real-time speech analysis via the Web Speech API to detect hesitation, then triggered AI-generated coaching tips through an LLM API to help users recover mid-pitch.

Nutrio — Smart Pantry & Meal Planning Mobile App

Capstone Project

Developer & Designer | React Native, Expo, Supabase

- Built a mobile app that tracks pantry inventory, logs meals, and recommends recipes based on available ingredients using AI-assisted suggestions.
- Designed an insights dashboard that highlights food wastage patterns to help users reduce waste.

CERTIFICATIONS

- Level 3, TOPCIT (Test of Practical Competency in IT)
- CCNA: Switching, Routing, and Wireless Essentials — Cisco Networking Academy, via University of Cebu–Lapu-Lapu Mandaue (February 2026)

LEADERSHIP & ORGANIZATIONS

Public Information Officer (P.I.O.)

2024 – 2025

Philippine Society of Information Technology Students (PSITS) – UCLM Chapter

- Helped organize school-wide IT events and led information dissemination through publicity materials (pubmats) for organizational activities.

AWARDS & ACHIEVEMENTS

- 1st Runner-Up, UI/UX Design — CCS Days 2026
- Finalist, IBPAP “Can You HackIT” 2026 Hackathon
